SanDisk® Memory Cards and Cruzer Crossfire™ USB Flash Drives

Turn your PSP™ (PlayStation® Portable) into a fully loaded multimedia entertainment device with a SanDisk RapidGX™ Gaming Memory Card.

Maximize your PSP with the new SanDisk RapidGX Memory Stick PRO Duo™ card

Get the latest in technology and high performance along with an easy way to organize and transfer digital media files to and from your PSP. With a 1GB* RapidGX card, now you can:

- Automatically convert video files to PSP format**.
- Transfer large files faster at 15MB/sec*** write speed when the MicroMate™ reader (included) is plugged into a USB 2.0 port.
- Organize all your PSP files with the preloaded RapidGX Media software.
- Convert video files to the PSP format by using RapidGX Media.

Got Game? Get SanDisk!

Congratulations on purchasing your new game device. Now it's time to make another smart buy. For high performance and to get more out of all the advanced features and functions your new game system offers (like a digital audio player, video player, and photo viewer, just to name a few), you'll need extra memory. A lot of it. That's where RapidGX, Memory Stick PRO Duo, and SD™ cards come in handy. You see, RapidGX, Memory Stick PRO Duo and SD cards are the best way to save your game levels; view and store your images; play your favorite videos; listen to digital music and download and store game cheat codes, characters, game skins and more.

Fact is, SanDisk memory cards can turn your game system into a fully loaded multimedia entertainment unit instantly! And if you just purchased a new PC that has USB ports, the SanDisk Cruzer Crossfire™ USB flash drive gives you the freedom to take your game data, music, photos and more wherever you go.

Game on the go with SanDisk Cruzer Crossfire USB flash drives

SanDisk offers a lot more than just colorful memory cards to enhance your game. The SanDisk Cruzer Crossfire USB flash drives, available in capacities from 1GB, 2GB and 4GB, make your console or PC gaming experience both memorable and portable. Small, sleek and very sexy, the SanDisk Cruzer Crossfire USB flash drives let you take your game data, music, photos and more with you anywhere, so you can easily share your favorite digital media file. All you need is a device with a USB port and it's game on!

*1 megabyte (MB) = 1 million bytes; 1 gigabyte (GB) = 1 billion bytes.

**Supports most unencrypted file formats. See <http://www.sandisk.com/promo/rapidgx/>

***Based on internal testing.
